To be able to contribute to the growth of the organization by actively contributing to successful implementations of management systems and processes and also in turn able to adapt to ever changing management needs of a world class organization. To see myself as a successful leader of processes, systems and people in the near future.

## **Educational Qualifications:**

Course	Name of the Institution	Board/University	Year of completion	Percentage of Marks
B.E (M.E.)	Sri Venkateshwara College Of Engineering, Bangalore	Visvesvaraya Technological University, Belgaum	2015	61.40%
PUC	T.N.B. College, Bhagalpur	BSEB, Patna	2010	66.66%
SSLC	Navyug Vidyalaya, Bhagalpur	CBSE, New Delhi	2008	77.60%

## **Project Work:**

- **Power Generation Using Speed Breaker.**

The principle of the electric power generation using speed breaker mechanism is very simple. In this project we have tried to generate electricity through speed breaker present on roads. In this setup mechanical energy is converted into electrical power using a DC generator. Here the vertical motion of the top of the speed breaker is converted into rotational motion, which in turn rotates the generator and generates electricity.

## **Soft Skills:**

- Good understanding of Automotive and Mechanical Sector
- Having good analytical skill
- Having good communication and interpersonal skill

## **Computer and Technical Skills**

- Operating System- Window XP/7/8/10
