### **PROJECT DURING B.TECH:-**

#### ➤ **Project 1:**

Title: **“Organization directory framework”**

ODF system makes it easy to manage a wide range of customer relationship information to help ensure maximum customer satisfaction and the full development of sales opportunities. Up-to-date, accurate information is available immediately to your marketers, salespeople, administrators, help desk staff, planners, and other personnel who interact on a regular basis with your customer. Information about customers and prospects is therefore available from a single, reliable source to all authorized users, simplifying the whole process of customer service.

**Front End:** HTML, JSP

**Back End:** DB2

#### ➤ **Project 2:**

Title: **“Web Portal”**

The basic idea behind developing this project is to make website and application with fanatical attention to detail and offer a range of development service convenient and secure for the customers. It deploy in cloud with the help of IBM Blue mix is a cloud platform as a service (PaaS).

**Front End:** HTML, Servlet, JSP

**Back End:** DB2

### **PROJECT DURING DATA SCIENTIST COURSE: -**

#### ➤ **Project1:**

Title:” **TELECOM CASE STUDY”**

Mobicom is concerned that the market environment of rising churn rates and declining ARPU will hit them even harder as churn rate at Mobicom is relatively high. Currently they have been focusing on retaining their customers on a reactive basis when the subscriber calls in to close the account. Roll out targeted proactive retention programs, which include usage enhancing marketing programs to increase minutes of usage (MOU), rate plan migration, and a bundling strategy among others.

**Front End: R**

### **CO-CURRICULAR ACHIEVEMENTS: -**

- Won 1st position in school level singing competition (2009).
- Won 2nd position in blind race (2008).
- Participate in social activities in school (Help Age India).
