## PROJECTS

### **Online Bakery Store with Paypal Payment Integration**

*3 Months*

An online bakery store which shows a lots of bakery products to the customer . Customer can add or remove products from its cart and sub total will be shown respectively.Now for payment we have added PayPal payment method which can be used as an online merchant or we have kept cash on delivery on its address respectively.

Website is solely built using PHP,CSS and HTML.

### **A Voice Based Email for Visully Challenged People**

*4 Months*

It is an Interactive Voice Responce application Which is specially built for visually impaired people to let them access their email as its the most common means communication over internet. It's been developed on Android platform as it's portable, handy and secure. The application is secured through two way authentication of the user by password and fingerprint authentication. We have

setup the flask server to encrypt user credential and forward it to mail sever.
