TECHNICAL SKILLS:

- Programming languages : C, C++, JAVA
- Back end : SQL
- Databases : My SQL, Oracle 11g
- Operating Systems : Windows, Linux

PROJECTS:

Minor Projects:
1. People Talk
   o **Language used:** JAVA, HTML, CSS
   o **Application used:** Eclipse, Apache Tomcat
   o **Database used:** Oracle 11g

   Description: This project is basically a talk application in which different people can register on it to make their profile and connect through this application and chat with each other.

2. Stock Market Prediction
   o **Language used:** Python and Machine Learning.
   o **Application used:** Anaconda Navigator

   Description: The objective of the project is to study the supervised learning algorithms to predict the stock price. It calculates the estimated price of stock based on the historical data. It also provides an instantaneous visualization of the market index.

Major Projects:
1. Secure Data Storage Using Hybrid Cryptography
   o **Language used:** JAVA, HTML, CSS
   o **Application used:** Eclipse, Apache Tomcat
   o **Database used:** My SQL

   Description: In this project, we used 3 different types of algorithm .i.e. AES, DES and RC2 for encrypting data. A key is generated after encryption along with Cipher Text which is used as a secret key for decryption. The Cipher Text and Key is given to the recipient by email through which they can decrypt the message.

TRAININGS AND CERTIFICATIONS:

- JAVA from INCAPP, Greater Noida an ISO 9001:2008 certified Institute.
- Summer Industrial Training on Data Science & ML (Basics) using Python from Ardent Collaborations Pvt. Ltd., Kolkata.
