WORK EXPERIENCE

Roles and Responsibilities:

Currently, I am working on **Oracle EBS (Payroll and Core HR)**. Previously, I had worked on **Oracle Fusion HCM (Global HR and Talent Management)**. The role basically involved supporting the consulting team in different phases of the project with the objective of providing high-quality and value-adding solutions to customers within the guidelines, policies and norms of Infosys.

Areas of Responsibility:

- o Data Conversion - Migration from legacy system to Fusion using HCM Data Loader, Payroll Batch Loader and Spreadsheet Data Loader.
- o Development/Configuration
- o Interact with Client/Business over requirements from Data Load perspective.
- o Validation
- o Deployment
- o Knowledge Transfer

WestPac

- **Payroll and Global HR:**
  - o Implementation and Support project with providing assistance and guidance to clients and consumers regarding various issues.
  - o Worked on Toad, Putty, WinSCP, Control-M and E-business Suite.

AXA

- **Worked with AXA Partners:**
  - o Hired worker business object with different components: Assignment, Work Terms, Work Relationship and Assignment Supervisor.
  - o Loaded additional data for employees like Contacts, Contact Relationship, National Identifiers, Collective Agreements, Salary, Payroll and Element Entries.
  - o Worked on a new tool developed by client to load workers and used the same for these projects.

- **AXA Investment Managers:**
  - One of the major projects, which was not only for a long duration, but also one of the challenging ones.
  - Hired workers involving multiple scenarios using HDL and Client developed tool in combination along with different components: Assignment, Work Terms, Work Relationship and Assignment Supervisor.
  - SIT, UAT Testing for Core HR and Reports
  - Also loaded their element entries, payrolls, etc, via HDL and cost centres via PBL.
